BUILDING AUTOMATION

Honeywell

With WEBs-8000, WEBs-N4, and WEBs-AX, Honeywell has the Niagara Framework-based building management solution (BMS) that takes all aspects of your building and occupant needs into consideration to maximize energy efficiency and make management of your facility simpler and more user-friendly. Add the power of Spyder® or Stryker controllers, and you’ll have the versatility to choose from a collection of best-in-class control products ready to evolve and meet all of your HVAC, lighting, and security needs.

WEB-8000 Controller
Best in class features for streamline building management

WEBs-N4 Software Platform
Advanced Visualization & Navigation

WEBs-AX Automation Controllers
One control system for simplified building management and monitoring

LOAD CALCULATION & ENERGY MODELING

WRIGHTSOFT® IS A REVOLUTIONARY ALL-IN-ONE TECHNOLOGY.

Elite Software is the world’s premier software developer for HVAC, electrical, plumbing, and fire protection design software. Over 30 programs are offered for such applications as HVAC load calculations, building energy analysis, HVAC duct and pipe sizing, plumbing & lighting design, fault current calculations, voltage drops, fuse and breaker coordination, and much more. Our HVAC software sets the standard for excellence and ease-of-use in the industry.

We Offer:
- Site Survey
- HVAC Usage Modeling
- HVAC Load Calculation
- Payback Analysis
- Utility Rebate Applications
- Data Acquisition & Logging

FIELD SERVICE

We Offer:
- Manufacturer’s Warranty Repair
- Factory Startup
- Testing
- Commissioning
- Retro-Commissioning

TRIDION
CERTIFIED TECHNICIANS

We offer:
- Design
- Installation
- Programming
- Warranty Services
- Remote Monitoring
